GUY REUVENI

SOFTWARE DEVELOPER

PROFESSIONAL PROFILE

As an enthusiastic computer science student in the middle of my third year, I am actively seeking my first professional opportunity to leverage my skills and knowledge in real-world scenarios. With my studies nearing completion, I am fully committed to investing the hard work and dedication required to excel in a professional setting, always striving for continuous personal and professional development.

NOTABLE PROJECTS ON GITHUB

- **Dynamic Dictionary** - Developed an efficient dictionary management tool in C, simplifying word-related tasks such as addition, deletion, and search, in C.
- **WhatsApp Project** - using React, HTML, Node.js, JavaScript, and MongoDB, providing a comprehensive messaging platform that replicates the functionality of the real WhatsApp application.
- **KNN Classifications** - Developed a program for calculating vector distances using five algorithms, in C.
- **Tic Tac Toe Game** - Developed during a semester break to explore new technologies. This Python and Flask-based game features AI-driven difficulty levels, and a user-friendly interface using HTML, CSS, and JavaScript.

EXPERIENCE

IDF : Mar 2019 - Oct 2021

Assisted the Head of Section in spearheading recruitment efforts. Filled an officer role, commanding and managing a department of approximately 30 soldiers, managing administrative tasks, conducting candidate assessments, and optimizing recruitment procedures.

Tomax BIU : Nov 2023 - present

IT Support at Tomax Testing Bar Ilan - I ensure a smooth and secure remote testing experience. Expertly tackling technical challenges, I provide invaluable support for navigating the intricacies of the process.

Cet (center for educational technology) : Nov 2023 - present

As a part-time Teacher Assistant at cet, I guide high school students in the "Scientific-Technological Reserve" program, focusing on Python programming to bolster their skills in mathematics, sciences, and computing.
